Details of this Special

An Antique Electronic restoration is the replacement of all paper and electrolytic capacitors in an antique radio. More than 90% of the time this brings a radio back to its original or better operating condition. In this special, I will also include, if any or all are necessary, up to 3 small resistors the dial lamp and line cord. I will also clean, if necessary, the volume and tone controls, and band switch. I will replace a simple dial cord if broken. All other parts and services will cost extra.

Normally the turn around time to restore a 5 Tube All American chassis is on the same day it is received. If shipped by priority, it could take as little as 4 days from the time you send it to me, Occasionally there are "complications" and the chassis needs parts beyond the paper and electrolytic capacitors and if necessary, dial lamp and line cord. This might make your set take longer to restore. Most of the time, I can receive the radio, restore it and have it back in the mail on the same day.

I do **not** accept PayPal, checks, or credit cards. I accept cash or US Postal Money Orders, available only at a US Post Office, only.
 Please make all Money Orders payable to:
 Dave's Antique Radio & TV Restorations
 P.O. Box 285
 Liverpool, NY 13088-0285
 Please fill out the USPS Money Order Do not leave it blank

Payment Terms

For fastest service please enclose a US Postal Money Order, with your order, for the entire amount and return shipping. Chassis not picked up (no shipping has been paid for) or not paid for at all for within 15 days from the date of completion may be subject to a \$1.00 per day storage fee. Chassis still not picked up or paid for after 3 months may be sold to recoup restoration / storage costs.
